Why Smart Snacks in School?

- Supplements efforts to implement the new school meal patterns to provide a healthy school nutrition environment.
- Practical, science-based standards to provide children with the opportunity to make healthier choices.

Interim Final Rule

- Healthy, Hunger-Free Kids Act (2010) provided USDA authority to establish minimum nutrition standards for all foods and beverages **sold** outside of the Federal child nutrition programs in schools.
- Title: *Nutrition Standards for All Foods Sold in School (June 28, 2013)*
<http://www.gpo.gov/fdsys/pkg/FR-2013-06-28/pdf/2013-15249.pdf>
- Implementation: July 1, 2014

State and Local Flexibility

- The nutrition standards included in the interim final rule for all foods sold in school are minimum standards.
- Local educational agencies (LEAs) may establish additional standards.

Definitions and Applicability

Competitive Foods

For the purposes of the Interim Final Rule, Competitive Foods are all foods and beverages **sold** to students:

- Outside the school meal programs;
- On the school campus; and
- At any time during the school day.

Foods Not Under Smart Snacks Standards

Foods not offered for sale at school do not have to meet Smart Snacks standards.

- Must be addressed in local wellness policy
- Some examples include:
 - Classroom rewards
 - Foods brought for birthday/holiday celebration

Where and When does Smart Snacks Apply?

School campus: All areas of the property under the jurisdiction of the school that are accessible to students during the school day.

School day: The period from the midnight before to 30 minutes after the end of the official school day.

Nutrition Standards for Foods

Smart Snacks Standards for Foods

- Apply consistently to ALL grade levels
- To be allowable, a competitive food item must meet both:
 - General Standards
 - Specific Nutrient Standards
- Exemptions to Nutrient Standards for specific foods to be encouraged
- Allow broader exemptions for fruits and vegetables and some National School Lunch Program (NSLP) and School Breakfast Program (SBP) entrées

General Standards for Foods

Food item must meet ONE of the four General Standards

General Standards for Food

1. Be a whole grain-rich (WGR) product; **OR**
2. Contain one of the other major food groups as the first ingredient, including a fruit, vegetable, dairy product or protein food (meat, legumes, poultry, etc.); **OR**
3. Be a “combination food” with at least $\frac{1}{4}$ cup fruit and/or vegetable; **OR**
4. Contain 10 percent of the Daily Value of one nutrient of public health concern (only through June 30, 2016)
Calcium, potassium, vitamin D, dietary fiber

General Standards: Whole Grain-Rich

- **Grain products** must contain 50 percent or more whole grains by weight or have whole grains as the first ingredient.
- Easily identified by reading a product label.
- Consistent with meal pattern standards and the Healthier U.S. School Challenge whole grain requirement.

General Standards: Major Food Groups

General Standards: Combination Foods

- **Combination food** means an item that contains two or more components representing two or more of the recommended food groups:

fruit, vegetable, dairy (fluid milk), protein (meat/meat alternate), or grain

- **Examples** of combination foods that may contain $\frac{1}{4}$ cup fruit and/or vegetable:
 - Blueberry muffin containing $\frac{1}{4}$ cup of blueberries
 - Hummus and vegetables
 - Fruit and yogurt
 - Fruit cobbler with oatmeal crust
 - Tortilla chips with salsa

General Standards: Nutrients of Public Health Concern

- **Through June 30, 2016**, foods that contain 10 percent of the Daily Value (DV) of one nutrient of public health concern are allowable.

 Calcium, potassium, vitamin D, dietary fiber

- **Effective July 1, 2016**, allowable competitive foods must meet one of the three previous general standards.

Nutrient Standards for Foods

*Food item must meet ALL SIX of the Specific
Nutrient Standards*

Specific Nutrient Standards

- Total Fat
- Saturated Fat
- Trans Fat
- Sodium
- Calories
- Total Sugar

 **Accompaniments** must be included in the nutrient profile as a part of the item served. NO PRE-PORIONING REQUIRED!

Total Fat

- \leq 35 percent of total calories per item as packaged/served.

Exemptions include:

- Reduced-fat cheese and part-skim mozzarella;
- Nuts, seeds, and nut/seed butters;
- Dried fruit with nuts and/or seeds with no added nutritive sweeteners or fat; and
- Seafood with no added fat.

Saturated Fat

- <10 percent of total calories per item as packaged/served.

Exemptions include:

- Reduced-fat cheese and part-skim mozzarella;
- Nuts, seeds, and nut/seed butters;
- Dried fruit with nuts and/or seeds with no added nutritive sweeteners or fat.

Trans Fat

- Zero grams of trans fat per portion as packaged/served.

Example of Fat Calculations

There are **two** acceptable methods for calculating **Total Fat**.

1. $\frac{\text{Calories from fat}}{\text{Total calories}} \times 100$

2. $\frac{\text{Total fat (g)} \times 9 \text{ cal/g}}{\text{Total calories}} \times 100$

Nutrition Facts	
Serving Size 1 oz (28g)	
Serving Per Container 1	
Amount Per Serving	
Calories 140	Calories from Fat 50
% Daily Values*	
Total Fat 5g	8%
Saturated Fat 0.5g	3%
Trans Fat 0g	
Sodium 200mg	8%
Total Carbohydrate 18g	6%
Dietary Fiber 3g	12%
Sugars 2g	
Protein 3g	6%

*Percent Daily Values are based on a 2,000 calorie diet.

If either method results in ≤ 35 percent (DO NOT ROUND), then item meets total fat standard

Example of Fat Calculations

There are **two** acceptable methods for calculating **Total Fat**.

1. $\frac{\text{Calories from fat}}{\text{Total calories}} \times 100$
2. $\frac{\text{Total fat (g)} \times 9 \text{ cal/g}}{\text{Total calories}} \times 100$

To calculate percent of calories from total fat:

Method 1: $50 \text{ calories} \div 140 \text{ calories} \times 100 = 35.7\%$

Method 2: $5\text{g} \times 9 \text{ cal/g} \div 140 \text{ calories} \times 100 = 32.1\%$

Example of Fat Calculations

There is one method for calculating Saturated Fat.

$$\frac{\text{Saturated fat (g)} \times 9 \text{ cal/g}}{\text{Total calories}} \times 100$$

****DO NOT ROUND results. Products up to 9.9 percent of calories from saturated fat will meet the standard****

Fundraisers

So What About Fundraisers?

- All foods that meet the Smart Snacks standards may be sold at fundraisers on the school campus during the school day without a limit on frequency.
- Smart Snacks standards do not apply to items sold during non-school hours, weekends, or off-campus fundraising events.

So What About Fundraisers?

- Fundraiser Exemption:
 - PDE can establish a policy to allow a specific number of exemptions.
 - PDE will make a policy decision regarding whether to allow exempt fundraisers during the school year by July 1, 2014.
- No exempt fundraiser foods or beverages may be sold in competition with school meals in the food service area during the meal service.

Administrative Provisions

Recordkeeping

LEAs and school food authorities (SFAs) maintain records, such as receipts, nutrition labels and product specifications:

- SFAs maintain records for competitive foods sold under the nonprofit school food service account
- LEAs maintain records for all other competitive food sales

Monitoring and Compliance

- State agencies will monitor compliance with the standards through a review of LEA records as part of the state agency administrative review.
- If violations have occurred, technical assistance and corrective action plans would be required.

Ongoing Feedback

- USDA will consider your feedback:
 - To develop further guidance and technical assistance
 - To determine if additional modifications to the requirements are needed
